IDEAL 2000®
Light – the elixir of life

Windows flood rooms with light.
Light gives energy for life, warmth and comfort ...

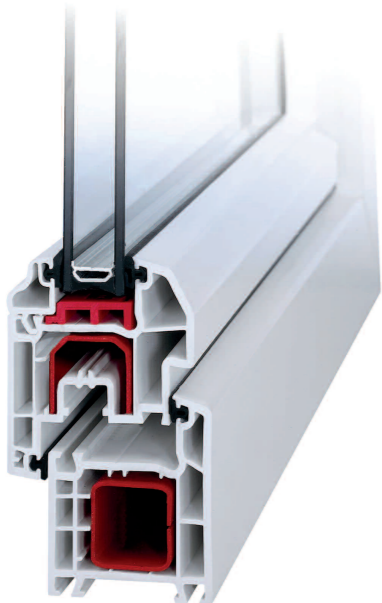

Security | provides safety

Window systems from aluplast guarantee you stable and high quality materials you can rely on.

IDEAL 2000® | advantages for you

- 60 mm depth
- heat insulation characteristics for the standard combinations $U_f = 1.5 \text{ W/m}^2\text{K}$
- glazing thickness up to 35 mm (flush mounted variant up to 51 mm)
- sound insulation up to 47 dB (up to sound insulation class V)
- Triple design variety in the sash (surface offset | half-surface offset | flush)
- available in different profile shapes
- covered, non-visible drainage possible
- 3 chamber system
- groove seal system with two sealing levels
- use of the relevant security window hardware guarantees best protection against break-in

Noise insulation | you need silence

Everyday life is dominated by hecticness. You long for more silence. IDEAL 2000® window systems with special glazing offer you best noise insulation for a silent home.

Heat insulation | for your comfort

A window must assure you optimum heat insulation – all year long!
